## MEMORANDUM

LIBRARY
RECEIVED

\* AUG 3 1 1959 \*

AUG 5 1 1000

FROM THE DESK OF:

Robert M. Scully

TO: Our Customers

DATE: August 1959

Another year has rolled around, and we proudly present our

Bob Scully in his office at "Orchidglade"

1959-60 Wholesale Catalog of Fine Ornamental Foliage Plants. I hope that you will take a few minutes to browse through its pages—compare prices and quality—and realize the potential possibilities of increasing your profits by providing your customers with the foliage plants they are seeking.

Today's Modern Homes DEMAND foliage plants—all of the magazines feature foliage plants in their colorful advertising creations—a demand which the Florist should not ignore. With the demand there, why not take advantage of it? Many of the more progressive florists have realized their position and, by STOCK-ING a creditable amount of QUALITY Ornamentals, have made a fine profit! "A bird in the hand is worth two in the bush;" it's good business to cater to the impulsive buyer by keeping an assortment of plants for every need displayed in your shop!

JONES & SCULLY, INC. has supplied Foliage Plants to the Trade for 14 years—we were one of Florida's first firms to grow Indoor plants—and it is still our policy to grow only those items which will do WELL used as interior decoration. Thanks to you and your valued orders, we continue to enjoy an expanding business.

Although we cannot claim to be the LARGEST grower of foliage plants in Florida, we can truthfully say that none of our competitors grow a wider variety of really QUALITY plants.

JONES & SCULLY'S NURSERY is "Where you buy with confidence."

. . . To the Discriminating Florist . . .

## Orchidglade proudly offers

# PRECIOUS POTS\* FOR PRECIOUS PLANTS

Designed with the Connoisseur in mind.

Gerry Sparks in her studio.

Unique, Versatile, Porous Clay Pots in which to grow and display prized plants attractively.

## HANDCRAFTED • SIGNATURED • ORIGINALS\*

### Priced from \$2 to \$15 each

Pictures on pages 28 and 29

\*Each of these decorative pots for growing is an Original—designed under our direction—by three of Miami's outstanding artists: Juanita May, Gerry Sparks and Helen Steele. These talented ceramists, plant hobbyists themselves, have all been recognized in their field and have received many awards for their works.

You will agree that certain plants demand special containers to show plant and flower to the best advantage; these pots are the ideal answer. They are of porous clay with drainage holes — either of the conventional type or worked into the design. And, the longer they are in use, the more beautiful they become.

Many other plants are well-suited for growing in the various pot styles other than the types we suggest. You be the judge, but do select some of these for your favorite plants. Pictured on pages 28 and 29 are designs which may be ordered; many other styles are available from our office display. These PRECIOUS POTS make wonderful gifts!

6"	pot	(30"-36")	\$3.50

## DRACAENA GRACILIS

One of the finest and most decorative, modern type plants that we have had the pleasure of introducing to the florist trade. The unique and artistic habit of the stems lend themselves to modern interiors. This plant was introduced into this country many years ago by the Spanish at the southern-most city of the United States - Key West.

Not until recently have we had sufficient stock to offer in large sizes. Each plant grown is different in shape and we can offer duplicates only in the straight-stem plants. This plant has proven itself ideal for interior decoration where light intensity is low, but will also stand full sun. We know of few plants that can offer these qualities.

The photographs on these pages are only an indication of shapes and sizes.

HEIGHTS (quoted in parentheses) ARE APPROXIMATE.

PLANTS INDOORS, by Mary Noble and J. L. Merkel \$6.95

A guide to their selection, care and use in decoration. Well illustrated, also in color.

## YOU CAN GROW ORCHIDS, by Mary Noble

\$1.98

A good introduction to orchid growing for the hobbyist.

## THE ORCHIDS - A SCIENTIFIC SURVEY,

Edited by Carl L. Withner \$14.00

A full account of the science of orchidology as it is known to date. Each topic is dealt with by an expert—structure and classification, orchid physiology, hybridization, genetics, pests and diseases. Important to all orchid growers and fanciers—amateur or commercial. 625 pages, 144 illustrations.

PLEASE INCLUDE IN YOUR REMITTANCE SUFFICIENT FUNDS TO COVER POSTAGE; ANY OVERAGE WILL BE REFUNDED

## ORCHID AND GROWERS SUPPLIES

## **Potting Materials:**

During the past few years, several new potting materials have found a place in orchid culture. OSMUNDA has been the proven potting material and has been used universally—almost exclusively—during the past fifty years. We do not feel that the new potting materials used today—Fir Bark or Tree Fern—are superior to Osmunda except perhaps for certain genera under certain climatic conditions. If one is not having success with the culture of a given genera, then it would be wise to try a different potting media.

FIR BARK and TREE FERN are certainly much easier to pot with than Osmunda, and this fact, alone, will win them many users. Use of these two potting media makes it possible to keep up with the potting and leaves more free time to enjoy one's collections.

In the fir bark and tree fern categories, we believe that VITA-BARK and MEXI-FERN are the two best products of their kind on the market today—far superior to the competitive products.

### VITA-BARK

VITA-BARK should be moistened before using because it is easier to handle and will respond much better to watering after potting. We recommend the removal of all the Osmunda fiber from orchid roots before potting in VITA-BARK. Repotting in VITA-BARK plants which have been in bark is a simple operation because the old bark can be shaken from the orchid roots without damaging them; with osmunda, there is no alternative but to pull the old fiber off the roots while exercising great care not to damage them.

## Recommended Usage

VITA-BA	RK	SIZES		POT SIZES				
11/2"	х	3/4"	for	8" pots, or	larger	(Especially	Vanda &	Dendrobium)
3/4′′	х	1/4"	for	7"-8" pots	_			
5/8"	х	1/4"	for	4"-6" pots				
1/2"	х	1/4"	for	21/2"-3" pot	'S			
1/4"	х	½"	for	small seedli	ngs			

## VITA-BARK Prices as follows:

1	to	10	bags	\$4.95	each
11	to	25	bags	4.25	each
26	to	50	bags	4.00	each

VITA-BARK is packed in 2-cu.-ft., three layered paper sacks—inner layer fortified with polyethelene. Weight varies according to the size of the particles—the smaller the grade, the heavier the bag.

Since the minimum Freight Charge is based on 100#, we suggest that you order at least three bags of VITA-BARK when buying.

We are the Southeastern Distributors for VITA-BARK. QUANTITY PRICES ON REQUEST!

All Prices F. O. B. Miami

continued

Potting Materials: (cont).

## MEXI-FERN

MEXI-FERN has a great advantage in that it does not decompose as rapidly as other potting media, yet it allows good drainage and aeration to the roots. This is prepared in three sizes.

## Recommended Usage

Coarse for small plants in 2" and 4" pots

Little Chunks for 5" to 7" pots

Chunks for large pots or baskets

Coarse 2 cu. ft. carton \$5.00

2 cu. ft. carton \$5.50

2 cu. ft. carton \$5.00

Since the minimum Freight Charge is based on 100#, we suggest that you order several bags or cartons for the same freight cost.

OSMUNDA FIBER \_\_\_\_\_

Bale \$12.00

Hobby Bag \$ 2.50

We continue to purchase good quality osmunda from the men who gather it in the Everglades. We feel that quality Osmunda is necessary to grow quality plants—if this is the medium you prefer. We can ship the best grade of Florida Osmunda in lots of one or more bales.

CHARCOAL (hardwood) \_\_\_\_\_ 20-lb. bag \$2,50

### **POTS**

We are agents in the Miami area for Orchid Pots and offer our customer a complete stock. Pots must be picked up at our nursery except in the case of loads or part loads which we can arrange to have delivered direct from the pottery.

All Prices F. O. B. Miami

## STAKING PLANTS

Plants grown in MEXI-FERN or VITA-BARK usually require special staking, and we offer many different styles for the purpose. We can recommend all of them and suggest that you give the different methods a trial then choose the system that suits you best.

F.O.B. Miami Include potsage charges with order.

By using these indestructible labels to identify your orchid plants, you will increase the value of your collection immeasurably.

In addition to having a permanent record of the correct name of each of your orchid plants and any awards which they may receive, the reverse side of the labels offer an 'at hand' record for such pertinent information as potting data, flowering dates, source of purchase, description of blooms and so forth. This label is larger in size than others on the market, which allows ample space for such information.

## FERTILIZING

VITA-BARK and MEXI-FERN must be fertilized to insure good plant growth. Most authorities and experienced growers agree that nitragen is needed to a greater extent than the other elements which are used in smaller quantities. We recommend the use of KAPCO 30-10-10 Fertilizer. The frequency of fertilizing depends on the season and the plant in question.

We have found a stock solution of 12 oz. of 30-10-10 to 3 gallons of water dispensed through a HOZON (which dilutes the concentrate 1 to 15) to be satisfactory. For a limited number of plants, 30-10-10 may be used 1 oz. to 4 gallons of water and watered directly on the potting media.

## Fertilizers:

Atlas Fish Fertilizer \_\_\_\_\_\_ 4 oz. \$0.39 pt. \$1.00 qt. \$1.90

Kapco 20-20-20 \_\_\_\_ 50-lb. bag \$20.25 Water Soluble

Kapaco 30-10-10 \_\_\_\_ 50-lb. bag \$23.25 Water Soluble 11/4-lb carton \$ 1.35

## Fungicide:

Natriphene ---- Pkg. 5 tablets \$0.50 Use one 73-grain tables to 21/2 gals. of water.

## Insecticides:

## Dimite

### CONDITIONS OF SALE

- Orders are filled in rotation usually the same day or the one following receipt. Advise if your order is urgently needed — we will expedite it to the best of our ability.
- 2. Prices quoted are F.O.B. Miami.
- We do NOT make a packing charge except for crating of some large specimens.
- 4. TERMS: Cash with order unless credit has been previously established.
- 5. Florida residents add 3% sales tax on supplies unless we have your Sales Tax Number on file.
- 6. SHIPPING: It is our general practice to make shipments by Railway Express. However, if there is a more economical or more satisfactory service to your area via Truck Line or Air Route, we use these facilities. If you have a preference, please indicate.
- 7. When ordering supplies or plants which are to be shipped via Parcel Post, please include sufficient funds with your remittance to cover postage—any overage will be refunded. We cannot assume responsibility for losses when plants are shipped via Parcel Post.
- 8. CLAIMS: Any claims for damaged shipments must be filed immediately with the carrier by the Consignee. We make every effort to pack carefully, and our responsibility ends when the shipment is accepted by the carrier.
- 9. Plant heights and lengths quoted are approximate.
- Prices are subject to change without notice. We reserve the right to limit quantities and to withdraw any offering from sale at any time.
- 11. NON-WARRANTY: We, Jones & Scully, Inc., give no warranty—expressed or implied as to the productiveness of any of the plants we sell, and will not be responsible in any way for the crop. Our liability, in all instances, is limited to the purchase price of these plants.
